Style Development, Assignment 2 of 3

To create at least 10 pieces (pages or digital spreads) of a refined style from the research in your sketch book, including detailed notes of how you approached this. For my style refinement, I choose the water colour geometry which includes water colour paint and line drawn shapes to produce something to represent **Park Hill Flats**.

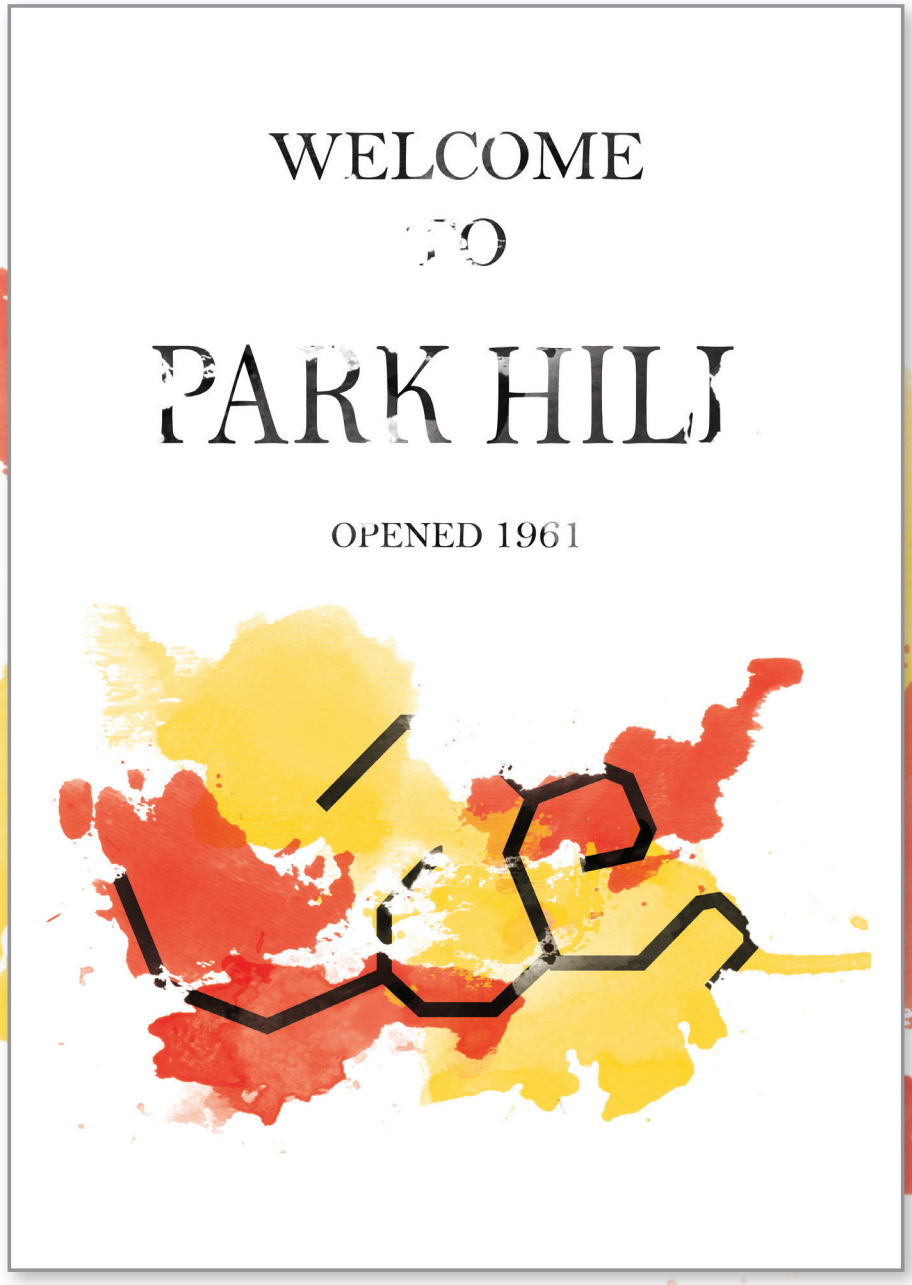

For the following 10 pieces, I used similar techniques and created a watercolour art piece on an A4 spread which I then worked with.

Piece 10

I created an art-board one last time to be used underneath a vector drawing of Park Hill flats map. I used royalty free Photoshop brushes to do this that matched the style chosen.

I used an image of the very first sign to the site that was used upon the open of Park Hill as a reference to draw the map within Illustrator.

The vector drawing worked quite well over the top of the art-board so I was able to mess around with effects to try and improve this further like masking it over the art-board as shown below.

Final Outcomes:
