Style Development, Assignment 2 of 3

To create at least 10 pieces (pages or digital spreads) of a refined style from the research in your sketch book, including detailed notes of how you approached this. For my style refinement, I choose the water colour geometry which includes water colour paint and line drawn shapes to produce something to represent **Park Hill Flats**.

For the following 10 pieces, I used similar techniques and created a watercolour art piece on an A4 spread which I then worked with.

Ps

Poster Concept for Piece 1:

Piece 5

Using this royalty free image download from pixabay.com, I choose an image that I had taken myself. In this piece, i wanted to elaborate more on the famous quote. "Streets in the Sky", so I blended this clouds picture and 2 other pictures I took myself.

The image on the right is the old site and the left is the new site. My intentions are to blend these 2 with some watercolour paint brush sets within Photoshop onto the cloud image above.

Using the lighten blend mode on the image layer, this allowed the image to be placed over the top of the old Park Hill site and be able to see it. Using the eraser, I refined it to smooth the edges.

Here are a few different outcomes using different blend modes:
