Style Development, Assignment 2 of 3

To create at least 10 pieces (pages or digital spreads) of a refined style from the research in your sketch book, including detailed notes of how you approached this. For my style refinement, I choose the water colour geometry which includes water colour paint and line drawn shapes to produce something to represent **Park Hill Flats**.

For the following 10 pieces, I used similar techniques and created a watercolour art piece on an A4 spread which I then worked with.

Piece 6

Same as previous pieces, I used royalty free watercolour Photoshop brushes to create this art-board thus giving me better control on the layer options and final piece.

I found an image from my primary research done previously to use. Then changed the art-board to black and white so the image can go over the top.

I found this looked great as it is but some things still ended changing. i wanted the image to look more like water colour so i duplicated the black and white art-board so it was darker, made the image black and white and tweaked the levels. To add, I used a plain brush to colour the windows in roughly giving a painted affect.

Final Outcomes:
